

Esta banda-desenvolvida explica  
duma forma divertida que o  
óleo deve ser deitado na reci-  
clagem (óleo) e mãe me lava-  
-loicas, pergunto a ETAR, às vezes  
mãe e separa da água.

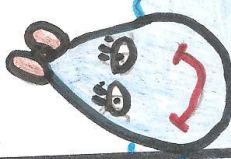

Realizado por:

Bruna Araújo  
Carolina Araújo  
Aliciana Soares

Então getinha, vamos - nos  
reparar.

Meu amigo Oli, as pessoas  
vão ajudar.

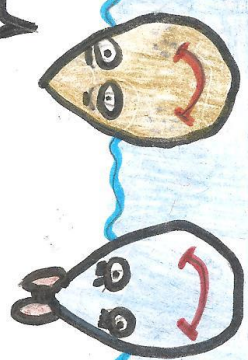

Ne olhas wormer  
deitar o óleo que  
mas tu estar!

gostei muito de  
te conhecer, Oli.

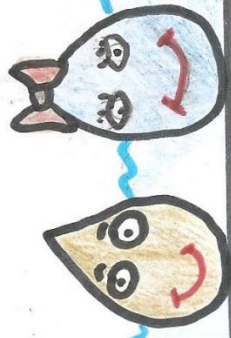

Eu também  
getinha!

ATENÇÃO  
NÃO ESQUEÇAM:  
ÓLEO É NO  
OLEÃO!

WILE

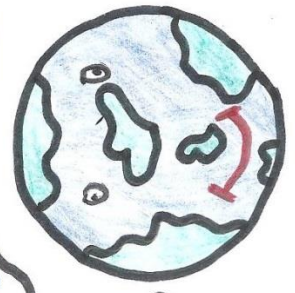

Por é... Se não existissem as ETAR, a água ficaria poluída.

E a nossa vida não seria a mesma.

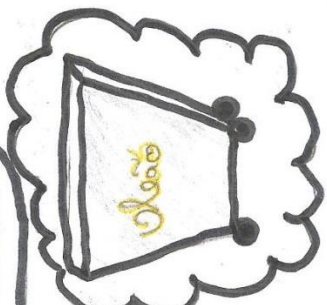

Se todas as pessoas contribuíssem, o planeta agradeceria.

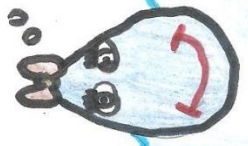

E os nossos rios também!

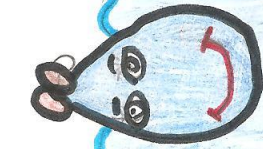

Então vamos lá, malta, e eles recidam.

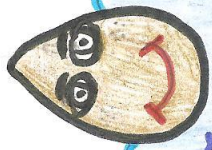

Vamos começar a alertar as pessoas para preservar a água.

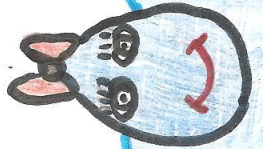

Pois é, mas assim vamos  
ter que nos separar

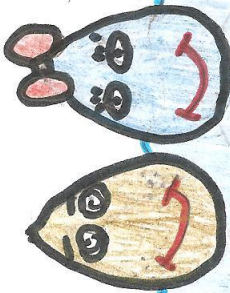

Tenho muita pena  
que isso vá acontecer!

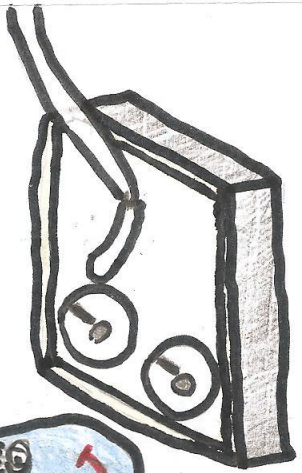

Tens razão!

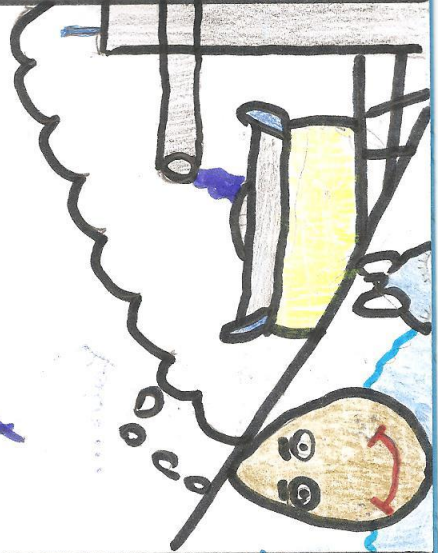

Mas é o melhor para  
a vida humana.

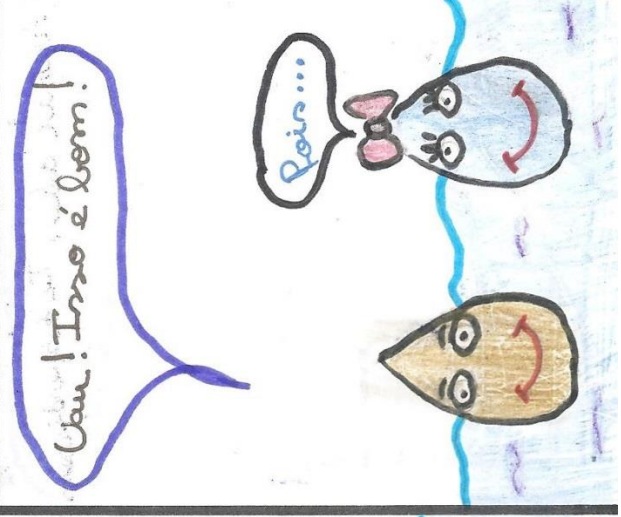

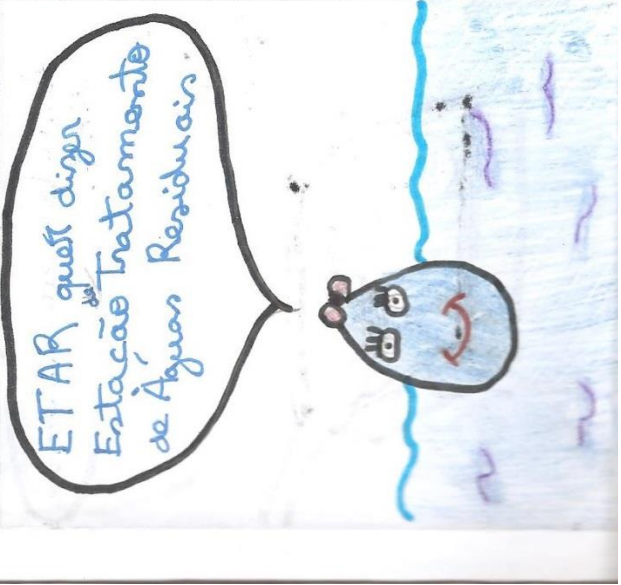

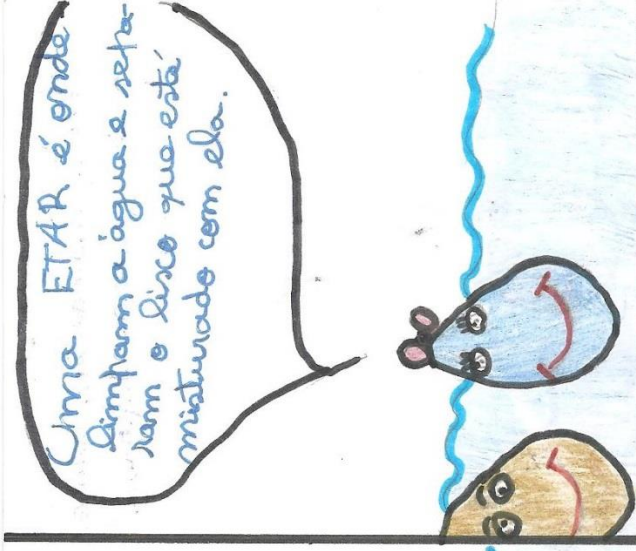

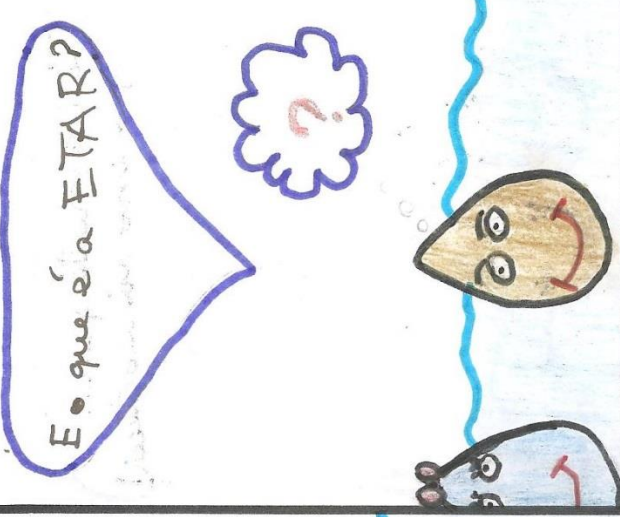

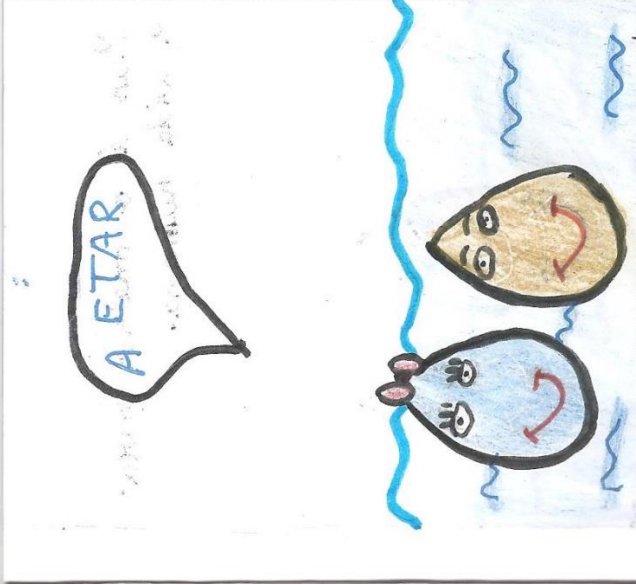

Ainda bem que existem as  
ETAR.

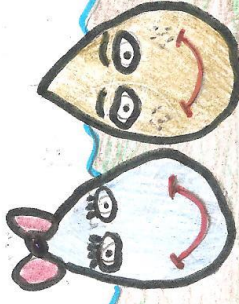

Apesar de os te despendicem

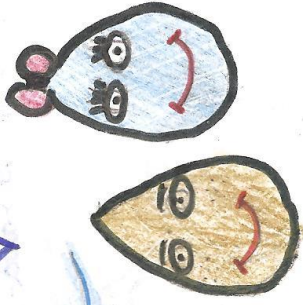

Sim, mas as pessoas não sabem isso. Onde estamos?

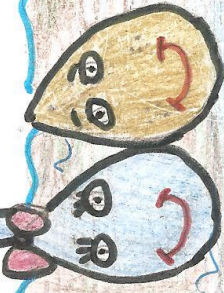

Chegamos aonde?

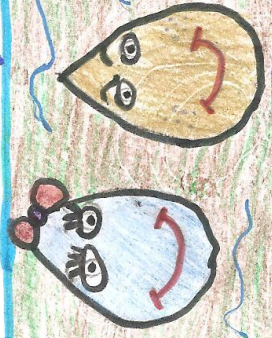

Olá, Oi! Sou a gatinha. Tu devias estar na reciclagem!

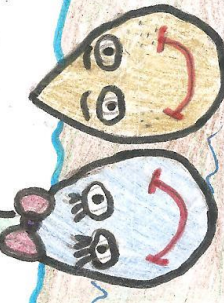

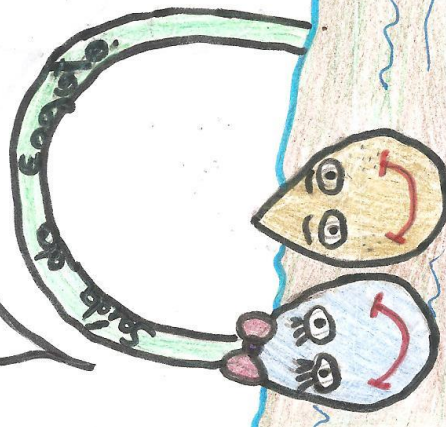

Chegamos!

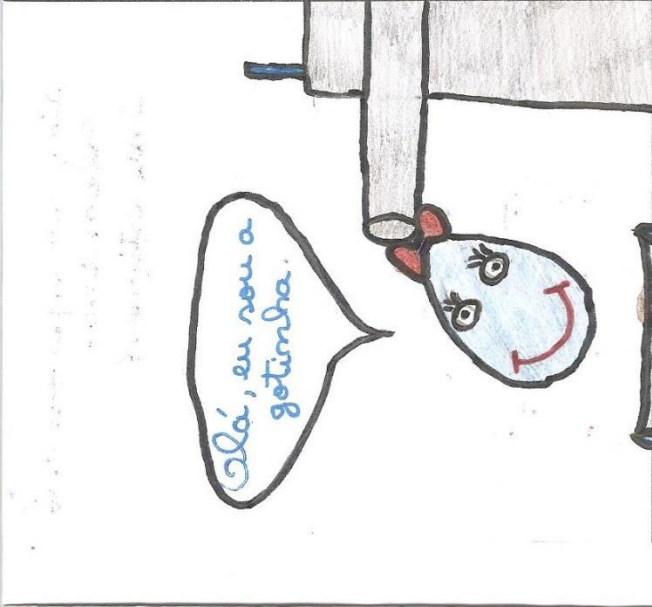

Calma, sou o Oli, uma gôta de óleo.

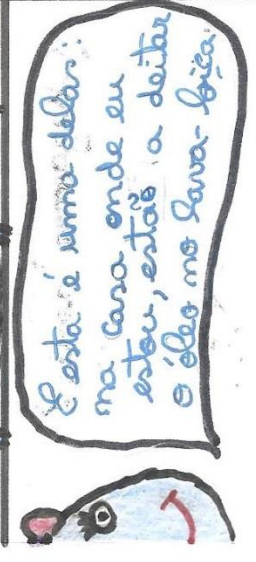

Agora estamos no exêto e do exgêto vamos para a ETAR.

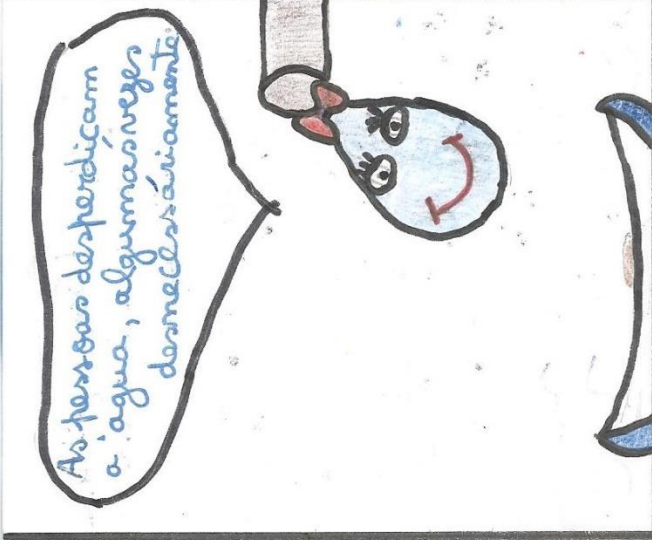

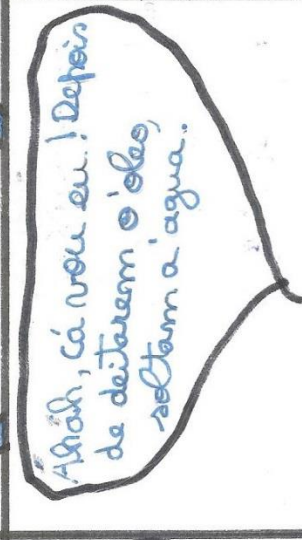

Olá, eu sou a gotinha.

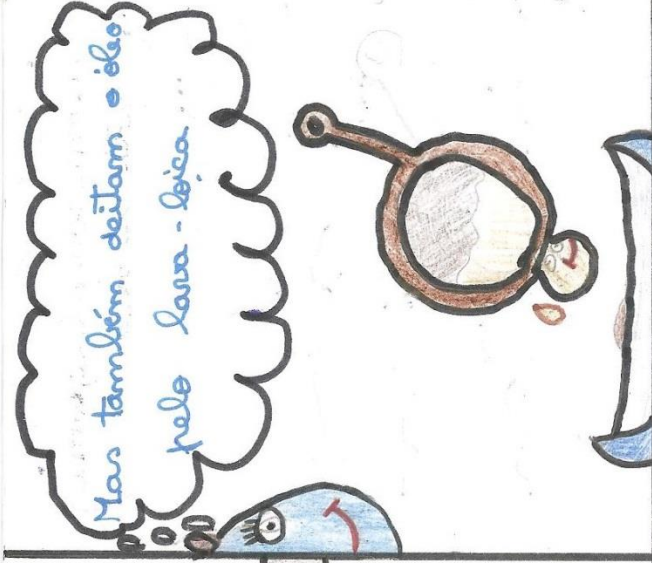

Esta é uma delas: na casa onde eu estou, estão a deitar o óleo no lava-louça.

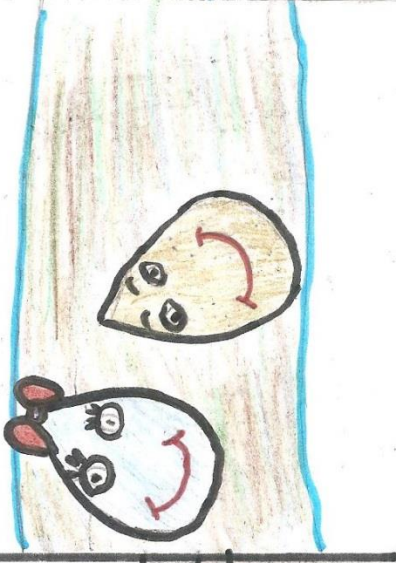

As pessoas desperdiçam a água, algumas vezes de maneira consciente.

Ahah, cá vou eu! Depois de deitarem o óleo, soltam a água...

Mas também deitam o óleo pelo lava-louça...

Plim, Plim. Onde é que estou? Quem és tu?

Oli e a Gotinha...
